NRG SPECIAL PRODUCTS

Engineering works, CNC milling and turning and much more

A complete package of services and innovative concepts from a single source

Engineering works, CNC milling and turning and much more

WE CAN PROVIDE YOU WITH

Engineering:

- Making drawings of non-standard products or according to customer specifications
- We work with a CAM System to convert 3D models into machining programmes

CNC milling:

- Ibarmia ZVH – Milling Station 5 Axis: X-1600 Y-900 Z-900 B-105 C-Ø800/360°
- Zayer 30KF – Milling station 4 Axis: X-3000 Y-1260 Z-1500 C-Ø1200/360°

CNC turning:

- Hankook VTC125e – Vertical CNC Lathe Ø1250 x 800
- Geminis GHT-5 – Horizontal CNC Lathe Ø800 x 3000
- Hwacheon Hi-Tech400 – Horizontal CNC Lathe Ø305 x 1200
- Hyundai-Kia SKT-250 – Horizontal CNC Lathe Ø250 x 1200

Turning conventional:

- Horizontal Lathe Ø700 x 2000
- Horizontal Lathe Ø600 x 2000
- Horizontal Lathe Ø430 x 1500

Drilling conventional:

- MAS-VO-100 – Radial drilling machine X-2500/360° Z-1500 Ø100
- Huvema HU50mZTI – Column drilling machine

Our modern turning and milling machines offer solutions for simple to highly complex applications in any series. If you require more information or wish to place an order after reading this brochure, please contact our department or send us your request by e-mail to:
